PROFESSIONAL SUMMARY

Full Stack Developer with hands-on experience building and deploying real-world applications through internships and independent projects. Strong problem-solving skills and a focus on creating reliable, user-centric solutions. Backed by published research and practical experience in Artificial Intelligence.

SKILLS

Languages and Frameworks: Java, JavaScript, Python, React.js, Node.js, Express.js, Tailwind CSS

Database and Tools: MongoDB, MySQL, Git, GitHub, Postman, VS Code, Railway, Vercel, Figma

Concepts: REST APIs, JWT Authentication, Data Structures and Algorithms, Object-Oriented Programming, DBMS, Operating Systems, Computer Networks, Artificial Intelligence

WORK EXPERIENCE

Web Development Intern

May 2025 - July 2025

JKC Software LLP, Remote

React.js, JavaScript, HTML, CSS, REST APIs

- Developed 10+ scalable and responsive web interfaces using React.js, JavaScript, HTML, and CSS for 5+ client-facing applications.
- Built 15+ reusable UI components, reducing redundant code by 30 percent and improving development efficiency.
- Integrated 5+ REST APIs and optimized frontend performance, reducing UI load times by 20 percent and enhancing responsiveness.
- Contributed to 3 Agile sprint releases covering feature implementation, debugging, and production deployment.

PROJECTS

XAI-Based Diabetes Prediction System - Python, Machine Learning, SHAP, scikit-learn [🐙 GitHub](#) - [🔗 Live Demo](#)

- Built a supervised machine learning pipeline achieving 95 percent accuracy on healthcare datasets for early diabetes detection.
- Applied SHAP-based Explainable AI to identify the top 5 predictive features, improving clinical interpretability for medical use.
- Deployed an interactive Streamlit application for real-time single-patient and batch predictions with SHAP visualizations.

Team Task Manager Platform - React.js, Node.js, Express.js, MongoDB, JWT

[🐙 GitHub](#)

- Engineered a full-stack platform with 3 user roles (Admin, Manager, Member), JWT authentication, and task assignment workflows.
- Designed RESTful APIs and responsive dashboards; deployed on Railway and Vercel for production-ready cross-device use.

MyZenMart – E-Commerce Platform - MongoDB, Express.js, React.js, Node.js, Tailwind CSS

[🐙 GitHub](#)

- Built a full-stack e-commerce application with 50+ product catalog, shopping cart, order tracking, and admin dashboard.
- Implemented JWT authentication, role-based access control, and RESTful APIs with fully responsive Tailwind CSS UI.

PUBLICATIONS

An Explainable Machine Learning Framework for Early Detection of Diabetes

IEEE Conference

- Proposed an interpretable machine learning framework using SHAP-based Explainable AI; analyzed 8+ key health indicators to improve transparency in diabetes prediction systems.

Nature's Filter: Inspired by the Flamingo's Beak

Scopus Indexed

- Proposed a biomimicry-based micro-filtration solution inspired by flamingo beak mechanics to improve natural filtration efficiency.

EDUCATION

B.Tech in Computer Science and Engineering

2022 - 2026

Amity University, Uttar Pradesh

CGPA: 7.61

CERTIFICATIONS

- Cisco Networking Academy - JavaScript Essentials 1
- Microsoft Learn - Introduction to Generative AI and Agents
- J.P. Morgan - Software Engineering Job Simulation
- Accenture - Data Analytics and Visualization Job Simulation

ACHIEVEMENTS

- **1st Place, Amity Circuitathon 2025:** Won first place among 50+ participants for innovative hardware-software solution development.
